<p>The <a href="#">Delaware Disabilities Council</a> recently launched a public awareness campaign aimed at improving the oral health of adults with developmental disabilities. The theme of the campaign is education, prevention and access. Did you know that adults with developmental disabilities have less comprehensive access to oral health care services than other adults?</p>	<p><b>LINK TO NEWS RELEASE</b></p>
<p>Adults in Delaware have developmental disabilities have less access to oral health care services than adults without disabilities. Find out more from in this short video.</p>	<p><b>UPLOAD VIDEO</b></p>
