Junior Partners in Policymaking
2022 Application

A big part of Junior Partners in Policymaking is about learning how to become an advocate in our society.

Please read this definition of ADVOCACY and answer the following questions.

ADVOCACY is acting purposefully to help you, another person or a group of people get better treatment in society. Please advocate for many reasons. For example, a person can advocate for themselves and their personal growth or as a way to make the lives of all people better at a local, national and international level. ADVOCACY can come in many forms. For example, it may mean talking with legislators to change laws or making speeches to your community about important issues.

If you are a member of an advocacy, school, or sports club organization, please list them and indicate any office held in the past or currently. Please note: being a member of an organization is not required to participate in Junior Partners in Policymaking.

Have you had any experiences advocating for yourself or other people with disabilities? If yes, please describe them.
